

## **TIMELESS LASER & SKIN CARE EXPANDS AGAIN**

**For Release:** Oct. 22, 2010

**North Olmsted**---Dr. Stefanie Christian, owner of Timeless Laser and Skin Care has announced the addition of Jaudon Sunde to the practice. Sunde will offer permanent makeup application and scar camouflage.

“Jaudon is a phenomenal permanent cosmetic artist,” said Dr. Christian. “The work she does is nothing short of incredible.”

Some of the most popular procedures include the application of permanent eyeliner, permanent eyebrows, permanent lip liner and full lip shading. The permanent cosmetics industry is growing due to new technology that provides very little discomfort and minimal down time.

“Jaudon applied permanent eyeliner and enhanced my brows and I love it!” said Dr. Christian. “I wake up with beautiful eyes and never have to put on eyeliner or eyebrow pencil. I have bare spots in my brows that have always been a source of embarrassment --but not anymore.”

Considered an expert in her field, Sunde spoke to the American Society of Plastic Surgeon Nurses and the Cleveland Clinic in conjunction with the Ohio Valley Society of Plastic Surgeons earlier this year. Sunde also has worked with several of the world's most renowned plastic surgeons. She advocates the use of permanent cosmetics to help women with medical conditions that hinder their self esteem and limit their ability to apply makeup, such as vision impairment, alopecia, lupus, cancer and arthritis.

Saunde will see clients at Timeless Laser & Skin care on Mondays. The practice is located at 4780 Clague Road in North Olmsted.
