

SPRING SKIN REFRESHERS

AS SEEN IN MIMI VANDERHAVEN

Fall in love with your face again

by MimiVanderhaven

Spring and summer are the big seasons for proms, weddings, reunions, graduations, and the family get-togethers that accompany these special events.

Does your skin look as youthful and healthy as you feel; or have acne, enlarged pores, fine lines, and brown spots made you self-conscious about how you will look at special events this year?

Dr. Stefanie Christian

Now is the perfect time to get serious about returning your skin to its healthiest possible condition so that you'll look your very best with a radiant glow, smooth texture, and even pigment.

Our staff has the knowledge, experience, and technology to help you accomplish these goals. All of our packages are enhanced with nutritional education to help you make the dietary choices for optimal skin health.

We offer three levels of special facial treatments for the spring:

Acne Facial Package

We use proven, physician-grade products for teen and adult acne.

Super Laser Facial Package for Texture

This option combines physician-grade facials and laser rejuvenation to treat enlarged pores and fine lines.

Super Laser Facial Package for Texture and Pigment

This option combines physician-grade facials and laser treatments for brown spots and diffuses redness as well as laser rejuvenation to treat enlarged pores and fine lines.

We also offer special prices on beauty extras, such as brow shaping and lash tinting along with the above packages.

These packages require a series of treatments, and now is the time to start in order to achieve optimal results.

Mimi readers who mention this story will receive \$50 off an Acne Facial Package and \$100 off a Super Laser Facial Package when scheduled before April 15, 2010.
