

LOCAL BUSINESS EXPANDS; JANUARY OPEN HOUSE PLANNED

For Release: Dec. 10, 2009

Cleveland, Ohio---Timeless Laser & Skin Care, the physician-run holistic aesthetic skin care practice managed by Dr. Stefanie Christian, has expanded and relocated to a larger office in North Olmsted.

An open house Sunday, Jan. 10 from 1:00-4:00 PM, will show off the new space at 4780 Clague Road. (Advanced Dental Care & Aesthetics also operates from this location.) Dr. Christian will be on hand to meet potential patients, answer questions about the practice, its services and products. Gift baskets, product samples and a special raffle will also be part of the festivities.

"We had quickly outgrown our space and wanted to add more services as well as professional skin care product lines," said Dr. Christian. "Many patients have requested treatments like chemical peels that an esthetician provides."

Annie Keller, a certified esthetician who has worked in Scottsdale, Ariz. and Cleveland has joined the practice. Ms. Keller will perform various cosmetic treatments including chemical peels, waxing and tinting of brows, lashes, beards and mustaches.

"The addition of Annie to the practice enables us to offer a full range of non-invasive skin care treatments to help patients with a variety of skin challenges," said Dr. Christian.

Dr. Christian uses lasers and light-based therapies, injectables and topical skin care products along with lifestyle and nutrition counseling for improving skin texture, pigment and tone.

Dr. Christian is pleased to offer patients two high-quality skin product lines, Glytone and *Avène*.

"Glytone is a wonderfully effective line of products only available to physicians and is clinically proven to address specific skin challenges," said Dr. Christian.

Glytone was created in the U.S. in 1943 and provides the highest bio-availability and time-released delivery of active ingredients and moisturizing agents for maximum effectiveness with minimum irritation.

"Avène uses hydrothermal spring water discovered 260 years ago in France and has remarkably gentle healing properties due to its unique combination of minerals," said Dr. Christian.

Avène is beneficial for skin prone to irritation and for those with conditions like rosacea. It is also recommended for skin that has undergone a cosmetic treatment. It has a proprietary delivery system for retinoids that is unusually gentle.

About Timeless Laser & Skin Care

Timeless Laser & Skin Care was founded by Dr. Stefanie Christian in 2006. Dr. Christian opened her aesthetic skincare practice after spending more than 14 years in academic, group and private practice as an OB/GYN. Thanks largely to her background in nutrition and women's health, Dr. Christian practices a holistic approach to skincare that includes nutrition and lifestyle counseling, skin care products as well as laser and light-based therapies and injectables. Dr. Christian received her undergraduate degree from Yale University in Molecular Biophysics & Biochemistry, cum laude. She earned her medical degree with honors from Case Western Reserve University School of Medicine, where she was inducted into the Alpha Omega Alpha Medical Honor Society.
